SUMMARY

Full-stack developer with 1 year of project-based experience designing and building responsive web applications. Proficient in modern JavaScript frameworks, backend development, and cloud deployment. Skilled in crafting seamless user experiences and solving real-world problems through technology.

SKILLS

- Programming Languages: HTML, CSS, JavaScript
- Frontend Technologies: React.js, Material-UI, Responsive Design
- Backend Technologies: Node.js, Express.js, MongoDB, WebSocket (Basics)
- Development Tools: Git, GitHub, Postman, TinyMCE Editor
- Soft Skills: Problem-Solving, Collaboration, Communication, Time Management

---

EDUCATION

Bachelor of Computer Applications (BCA)
Govindram Seksaria Science College, Karnataka   CGPA: 7.96 | Graduated : October 2024

Class XII (Science - PCMB)
Govindram Seksaria Science College, Karnataka   Percentage: 79% | Graduated: July 2021

PROJECTS

Protectify (Full stack Website) :

Technologies Used: React, Redux, Node.js, Express.js, MongoDB, WebSocket
- Built a secure and scalable web platform for real-time communication and collaboration.
- Implemented user authentication (sign-up, login, logout) with robust security measures.
- Added features for creating private/public rooms with real-time messaging using WebSocket.
- Enabled users to reset passwords and delete accounts securely.
- Deployed the platform on Render for seamless accessibility.
  Live Demo : https://protectify-df3q.onrender.com

Recipe Blogging Platform :

Technologies Used: Node.js, Express.js, MongoDB
- Developed a user-friendly platform for recipe sharing, including recipe submission, editing, and deletion.
- Integrated features like image uploads, review and rating systems, and favouriting recipes for personalized user engagement.
- Designed a responsive user interface to ensure seamless accessibility across devices.
- Implemented an admin panel for managing user activities and monitoring platform usage.
- Deployed the platform on Render to ensure stability and availability.
